

Pritee Mahajan

Java Developer

✉ mahajanpritee20@gmail.com ☎ 8381095434 📍 Pune 🌐 [linkedin.com/in/gayatri-kadam-bb7057179](https://www.linkedin.com/in/gayatri-kadam-bb7057179)

PROFILE

Java Backend Developer with 5 years of experience in enterprise application development, backend enhancement, patch development, production support and REST API development. Experienced in Java, Spring Boot, Spring Data JPA, Hibernate and SQL. Hands-on experience designing a production-style microservices application using Spring Cloud Config, Eureka, API Gateway, OpenFeign, Apache Kafka, Resilience4j and PostgreSQL. Strong debugging, root cause analysis and problem-solving skills with Agile delivery experience.

SKILLS

Programming Languages and Frameworks :

Java, Spring Boot, Spring MVC, Spring Data JPA , Hibernate , Kafka

Database :

MySQL, PostgreSQL

Tools :

Git, Jenkins, Splunk, Docker(basic), Rally, Postman ,Swagger

PROFESSIONAL EXPERIENCE

Software Engineer, Cybage

2020 – present

- Played a key role in designing and developing **microservices** using **Spring Boot** which greatly enhanced the scalability and performance of the system. As a Java developer, implemented a variety of features based on client requirements, ensuring that the solutions met business needs and were delivered on time.
 - Utilized tools like **STS, IntelliJ IDE, Postman**, and **JUnit** to ensure high code quality and effective testing throughout the development cycle.
 - Experienced in using **Git** for source code management and **Rally** for tracking project progress, while collaborating within **Agile** teams to drive efficient delivery.
 - Optimized the CI/CD pipeline using **Jenkins, Docker**, and **Kubernetes**, leading to smoother deployments and faster iterations.
 - Integrated Kafka for efficient real-time data streaming and messaging, helping to improve user experience and enhance content delivery
- Involved in all stages of the project, including **requirement gathering, solution design, development, deployment**, and **production support**, ensuring comprehensive support and successful project outcomes.
- Active involvement in providing production support for production issues, ensuring minimal downtime and efficient resolution of critical production incidents.
 - Familiar with Apache Kafka and its role in building scalable, distributed systems, and actively expanding knowledge of event-driven architecture.

PROJECTS

1. Travelclick / iHotelier(CRS)

- Developed backend enhancements and application patches based on business requirements.
- Modified and maintained existing Java/Spring Boot modules.
- Investigated production incidents and performed Root Cause Analysis (RCA).
- Resolved production defects and supported critical releases.
- Developed and maintained REST APIs.
- Analyzed production logs using Splunk.

- Generated builds using Jenkins and participated in deployment activities.
- Worked with Git, Maven and Rally in Agile Scrum environment.
- Collaborated with QA, Product Owners and cross-functional teams.

2. Technical Project – Smart Task Assignment System

Designed a production-style Spring Boot Microservices application.

- Implemented Config Server, Eureka Discovery and API Gateway.
- Developed Employee, Task and Assignment History microservices.
- Implemented synchronous communication using OpenFeign.
- Implemented asynchronous event-driven communication using Apache Kafka.
- Updated employee workload automatically through Kafka consumer.
- Implemented Circuit Breaker using Resilience4j.
- Used PostgreSQL, Spring Data JPA, Hibernate and MapStruct.
- Added validation, global exception handling and layered architecture.
- Tested APIs using Postman.

EDUCATION

PG - Diploma in Advance Computing(CDAC), IACSD, Pune

2020 – 2021

Bachelor of Engineering, NBN Sinhgad School of Engineering, Pune

2013 – 2017

HSC – Indirabai Lalwani Jr. College, Jamner

2012 – 2013

SSC – New English School, Jamner

2010 – 2011
